

XGPQ系列 洗脱烘一体机

XGPQ series Elution and drying machine

广 州 伊 狮 洗 涤 机 械 有 限 公 司

公司简介

COMPANY PROFILE

本公司专业生产电脑变频全自动洗脱机，工业洗衣机，脱水机，烘干机，烫平机，床单折叠机，人像机，去渍机，多功能万用夹烫机，烫台等几十种洗衣房设备本公司所有设备自主完成生产、测试、销售、售后等系列服务过程。

Our company specializes in the production of computer frequency automatic wasper-extractor, industrial washing machine, dehydrator, dryer, ironing machine, sheet folding machine, portrait machine, degreasing machine, multi-function universal press machine, ironing table and dozens of laundry equipment, all the equipment of the company independently complete the production, testing, sales, after-sales service process.

产品简介

PRODUCT DESCRIPTION

XGPQ系列 洗脱烘一体机

XGPQ series elution drying machine

本产品适用于各类针织物快速高效地烘干，特别适用于专业洗衣店 院等服务性行业与工矿企业、部队、机关、学校的洗衣房，同时能满足纺织印染与服装对织造品和成衣的后整理要求，具有广泛的适用性。

This product is suitable for fast and efficient drying of all kinds of knitted fabrics, especially suitable for service industries such as professional laundries, and laundry rooms of industrial and mining enterprises, troops, institutions, and schools. The finishing requirements of ready-made garments have wide applicability.

产品参数

PRODUCT PARAMETERS

型号 (MODEL)	XGPQ-15	XGPQ-25	XGPQ-30
洗涤额定容量 (KG) RATED CAPACITY	15	25	30
洗衣速度 (R/MIN) WASHING SPEED	40	40	40
脱水速度 (R/MIN) DEWATERING SPEED	750	750	750
滚筒尺寸 (MM) ROLLER SIZE	700X400	800X500	800X550
烘干功率 (KW) DTYING POWER	6	6	6
总功率 (KW) TOTAL POWER	1.5	2.2	3
外形尺寸 (MM) DIMENSIONS	1030X1050X1550	1050X1150X1650	1400X1200X1750
重量 (KG) WEIGHT	650	950	1050

产品介绍 PRODUCT DESCRIPTION

洗脱烘一体机是我公司最新研制推出的新一代洗脱、烘干、节能一体的完美组合。

其特点为：采用全悬浮避震结构，是真正意义上的无地基型。可洗涤水洗织物，并且有脱水、烘干功能。集洗涤、脱水为一体。使用户节约人力，时间占地面积和资金。

The washing and drying machine is the perfect combination of a new generation of washing, drying and energy saving newly developed by our company.

Its characteristics are: it adopts a full suspension shock absorber structure, which is a groundless type in the true sense.

Washable fabrics can be washed, and have dehydration and drying functions. It integrates washing and dehydration. Enable users to save manpower, time, space and money.

产品细节

PRODUCT DETAILS

采用智能控制面板

Adopt intelligent control panel

电脑控制，多种功能选择，更方便！

不锈钢内胆

Stainless steel liner

304不锈钢打造内胆，不生锈，更耐用

双减震设计

Double shock absorption design

洗衣时更稳固，双重减震，噪音减少

高级轴承

Premium Bearings

增加机器使用寿命，确保长时间高负荷运转

安装指南 INSTALLATION GUIDE

安装说明

- 1.安装时必须使用空气开关
- 2.机器地脚垫上胶垫
- 3.将方便机器运输时安装在机器侧面的支撑架拆除后方可使用
- 4.机器与机器之间,机器与墙体之间要留能容纳一人的空间,方便进行日常工作和维护保养

保养须知

- 1.洗涤前, 应检查洗涤衣物中是否存有刀片、发夹或硬币等杂物, 若有, 应全部取出。
- 2.定期检查三角皮带是否出现松动现象, 定期调节电机板, 使三角皮带紧固。
- 3.定期检查螺丝是否出现松动现象, 定期拧紧螺丝。
- 4.需要定期在加油泵加注相应润滑油, 以防止轴承磨损。黄油采用优质黄油, 每个月加一次, 根据使用频率, 按实际情况进行润滑。
- 5.保持设备摆放内空间干燥, 要勤于擦拭大型洗衣机上的水份以免洗衣机生锈。

Installation Instructions

1. Air switch must be used during installation
2. Pad the machine with rubber pads
3. Remove the support frame installed on the side of the machine for convenient transportation before use
4. Between the machines and between the machine and the wall, there should be room for one person to facilitate daily work and maintenance.

Maintenance instructions

1. Before washing, check whether there are blades, hairpins, COINS and other sundries in the washing clothes. If there are, remove them all.
2. Regularly check whether the triangle belt becomes loose and adjust the motor board regularly to make the triangle belt tighten.
3. Regularly check whether the screws become loose and tighten them regularly.
4. It is necessary to fill corresponding lubricating oil in the oil pump regularly to prevent bearing wear. Butter with high quality butter, add once a month, according to the frequency of use, according to the actual situation for lubrication.
5. Keep the internal space of equipment dry, and wipe the water on the large washing machine to avoid rust.
